

APPOINTMENTS

Animal Medical Center routinely schedules half hour appointments to allow ample time for each patient. Please call ahead if you cannot make your appointment time and must reschedule. This will allow us to schedule another patient in need of care.

We also offer drop-off service for those who find it difficult to schedule during regular appointment hours.

SAFETY

The safety of your family and pets is of great importance to us. We ask that all pets be restrained either with a short leash or pet carrier prior to entering the hospital. For your convenience, carriers and leashes are available at the front desk.

PAYMENT POLICY

Payment in full is expected at the time of service, or upon discharge for hospitalized patients.

An estimate of fees will be discussed before services are provided. A deposit is required for hospitalized patients at the time of admission. A veterinarian will consult with you prior to changes in diagnostic or treatment plans which may increase fees.

We accept cash, personal checks, Visa, Mastercard and Discover. We also offer flexible payment plans to those who qualify through CareCredit, a dedicated healthcare credit company.

A \$25.00 fee will be charged for all returned checks.

WELCOME

The Animal Medical Center is dedicated to serving the families of Springboro, Miamisburg and the surrounding communities. Our hospitals provide veterinary services exclusively for small animals such as dogs, cats, exotics and pocket pets.

Our doctors and staff accept the responsibility of supporting the human-animal bond through communication, education, expert opinion on medical concerns and compassionate care.

We are committed to delivering the highest quality veterinary medicine and customer service to our clients and their pets.

BOARDING

Animal Medical Center has a full service boarding that provides a safe and medically staffed environment for your pet while you are away.

All dogs are given exercise time two to three times per day in an outdoor fenced yard. Your pet will be fed a premium dog food unless a special diet is required.

Our veterinarians and staff will be available to provide necessary medical treatments and administer any medications your pet may require. While your pet is boarding, routine care such as yearly exams and vaccinations, dental cleanings, or surgical procedures may be scheduled.

All pets that enter our boarding facility must be current on vaccines, have a negative fecal analysis and be parasite free.

Just a reminder to schedule early!

MEDICAL SERVICES

Surgical services include routine spaying and neutering, declawing, soft tissue surgery, and orthopedic surgery.

Advanced imaging provided through the use of radiology, contrast studies, ultrasound and endoscopy.

Diagnostics such as in-house laboratory blood testing, urine testing, fecal analysis, blood pressure monitoring, and electrocardiograms allow for precise evaluation and monitoring for disease processes.

Dental services include examinations, ultrasonic cleanings, polishing, fluoride treatments, and dental surgery.

Preventive wellness programs for all stages of the dog's and cat's life. Routine wellness exams, diagnostic screenings, vaccinations, heartworm testing and prevention, external and internal parasite control, and nutritional counseling.

Experience in companion animal selection counseling and behavior counseling.

All of these services in addition to a strong relationship with local specialists allow the doctors of Animal Medical Center to offer the highest quality veterinary medicine for your companion animal.

VETERINARIANS

William D. Martin, DVM, Class of 2000, The Ohio State University College of Veterinary Medicine. Dr. Martin has a special interest in internal medicine and orthopedic surgery. He is currently working toward specialty certification in canine and feline medicine and surgery through the American Board of Veterinary Practitioners.

Kristina A. VanAutreve, DVM, graduated as a member of The Ohio State University College of Veterinary Medicine's class of 2008. Her passion is helping pets towards wellness through the utilization of the latest diagnostic and surgical procedures.

Valerie L. White, DVM, is a graduate of The Ohio State University College of Veterinary Medicine. In addition to seeing medical and surgical patients, she enjoys providing care to pets throughout their life stages and has a special interest in behavioral medicine.

Shawne S. Mazzei, DVM, Class of 2002, The Ohio State University College of Veterinary Medicine. Dr. Mazzei has a special interest in exotic pet medicine. In addition to dogs and cats, she also treats small birds, rabbits, ferrets, reptiles and pocket pets.
